The quarantined parts will be sent to Paragon for sorting - don't have a feel what the yield will be???

There was also some parts from the Warren D.C. sent to Paragon, for sorting, late last week.

We are working on turning all this inventory around, at Paragon, ASAP!

The inconsistency in Lextron's shipping quantities are caused by 1.) The amount of people that show up for work at Lextron

2.) Them working overtime

shorting clip quality problem (good/bad parts???)

3.) Most recently, the loss of production caused by the

We are past this problem now.

Lextron has worked overtime the past two weeks to help cover these problems. They will continue to work overtime as needed.

Ken,

What is the status on the 135k quarantined parts? Are we going to be able to use some of them?  
Why is Lextron so inconsistent week to week? From 230k to 240K to 300K?

Oscar
